

# RyMarc Productions

By: Ryan Malaga, Marcos Rodriguez

# Our Website

- Name of our website is RyMarcProductions.
- The purpose is to be an online version of a residential painting company.  
Traditionally, customers would call the company to request work, and the boss would have to go give an estimate of the job.
- This website attempts to provide an easier way of handling this transaction.
- The website also contains some common features, such as creating an account and providing/viewing feedback.

# Technologies Used

- HTML5
- CSS3
- JavaScript
- PHP
- MySQL

- Give feedback

The screenshot shows a web browser window with the address bar displaying `localhost/RyMarcProductions/givefeedback.php`. The page has a dark gray background. In the top right corner, it says "User: thebestsam@gmail.com" with a "Logout" link below it. The main heading is "RyMarc's Painting Service" in a large, bold, black serif font, followed by "Give Feedback" in a smaller, bold, black serif font. On the left side, there is a white vertical menu with the following links: "Home", "About Us/History", "Request Estimate", "Estimate Status", "View Feedback", and "View Past Work". The feedback form is a light gray box in the lower right. It contains an "Email:" label and a text input field. Below that is an "Overall Satisfaction:" label and a dropdown menu currently showing "Excellent". Underneath is a large white text area for "Comments:". At the bottom left of the form is a "Submit" button.

Customer	Review
arod13@gmail.com	Work ordered was done quickly as specified. Workers were very professional, and the new paint looks great. Will do business with you guys again!
jalo25@gmail.com	WOW!!! I am amazed at the work that was done in my house. The new paint looks amazing. Would use RyMarc's Painting Service again!
bjazz@gmail.com	Work was done as requested, was finished in a timely manner. New paint looks great.
rick25@gmail.com	The work I wanted done was done pretty quickly. The employees were very friendly and professional. Good work for a good price.

# The Website's Features

- Other features include an about us page, and pictures of past work.
- Admin section contains some features as well.
  - Can view all customers registered with the website.
  - Can see all current requested estimates from the customers.
  - Can respond to the estimates, so customers can see what the status of their estimate is.

# Features that could be added

- An interactive calendar, which shows both the customers and employees of the company what jobs are scheduled when. This could be useful to see what days are free, so a customer can request when they want their job done.
- A submission of photos or a video from the customers, so the boss can clearly see what the job will entail, without going out to the location of the job.
- Customer's history page, where they can view what previous work they had done.
- A way for customers to accept or decline job estimates.
- A way to mark estimates as current, or previous/already done.
